To  
Our Esteemed Alumni,  
Rewa Engineering College, Rewa

Date : 03/07/2025

**Subject:** *Inviting Alumni Partnership for REC Rewa's Visionary Development*

**Dear Alumni,**

**Warm greetings from your alma mater.**

Since its establishment in 1964, Rewa Engineering College has stood as a beacon of technical excellence, contributing meaningfully to the growth of our region, state, and nation. Our alumni have distinguished themselves across industries, civil services, academia, entrepreneurship, and social leadership, exemplifying the values of integrity, innovation, and service that define REC Rewa's proud legacy.

As we embark on a new era, it is essential to align engineering education with current global, national, and regional priorities — including rapid technological change, sustainability, digital transformation, and inclusive growth. With this aim, REC Rewa aspires to evolve into a Deemed University of national eminence, integrating academic excellence, innovation, and societal responsibility.

#### **Planned Initiatives (Next 5 Years)**

- Introduction of new undergraduate and postgraduate programs aligned with market needs
- Establishment of advanced research centres and industry-collaborative laboratories
- Development of a skill development centre and a startup and incubation hub
- Strengthening of the central library, auditorium, sports complex, student activity centre, and central computer centre
- Creation of an alumni office and guest house for enhanced alumni engagement
- Annual REC Day celebrations, alumni talks, and structured student-alumni mentoring programs
- Organisation of industry lectures and industrial visits for students and faculty
- Promotion of industry-supported research projects and sponsored innovations
- Expansion of soft skill, software skill training, and career counselling under TPO initiatives
- Formation of a social media cell to showcase REC Rewa's achievements
- Implementation of NEP 2020 for holistic, flexible education
- Adoption of e-office systems and digital e-HRMS for modern administration
- Sustained infrastructure development for a modern, inclusive, and sustainable campus

#### **Planned Vision (Next 15 Years)**

- Establishment of REC Rewa as a nationally recognised Deemed University
- Creation of Centres of Excellence in artificial intelligence, robotics, clean energy, and sustainability
- Development of a smart, green, and digitally integrated campus
- Expansion of global academic and industry collaborations
- Strengthening of a robust incubation, innovation, and entrepreneurship ecosystem
- Full-scale adoption of NEP and alignment with national missions and priorities

In this ambitious journey, the role of our alumni is invaluable. We warmly invite you to support us in any way possible — as mentors, guest speakers, collaborators on research and industry projects, sponsors of innovation, or simply as advocates of REC Rewa's vision. No effort is too small, no gesture insignificant. Your experience, guidance, and goodwill can open doors, inspire young minds, and propel our collective mission. Whether through time, expertise, connections, or resources, your contribution will leave a lasting mark on the future of your alma mater.

**Dear alumni, beyond the buildings and classrooms, REC Rewa lives in your memories, achievements, and pride.** Let us come together once again — to honor what we have inherited and to build what we will pass on. Your alma mater looks to you not just for support, but to share this dream, this responsibility, and this opportunity to shape generations to come.

With sincere regards,

**Prof. (Dr.) R.P. Tiwari**  
Principal  
Rewa Engineering College, Rewa
